

## *Here's What Our Visitors Say...*

*“The Children’s Museum of Fennville is a fun, welcoming place. My children and I feel very comfortable there, and love all the different activities.”*

*“What a great place for children of all ages! My 4 year old and 20 month old couldn’t get enough of it (not to mention Mom, Grandma, and Grandpa too!). We’ll defiantly be back to enjoy it again. Very obvious that a magnitude of thought and energy went into designing the museum with the resources available. Keep up the great work!”*

*“The Children’s Museum of Fennville is a unique gem worth discovering. Our children love to explore the many diverse exhibits packed into that little space. We laugh and learn.”*

*“The Children’s Museum of Fennville competes with big city museums in so many wonderful ways. There is a great focus on sciences as well as raising awareness for different cultures and children with disabilities. AS my son stated, he wants to come to the ‘fun place.’ This is a destination for anyone with children.”*

*“I have been a patron of the Children’s Museum of Fennville for the past five years...and I feel that it was the first, and most important, classroom for my daughter....I have made a point to bring my daughter to hands-on museums all over the country and I am grateful to have your right in my backyard. Your staff is professional, yet fun. Your exhibits are educations, yet fun. Your facility is world-class AND fun! It is a pleasure for me to bring my daughter to the Children’s Museum of Fennville and an honor to watch her learn.”*
